# Company Profile

OrgaTech Solution Engineering Consulting GmbH

**OrgaTech GmbH** stands for professional services and products in the fields of solution, engineering and consulting.

**We provide individual analyses, consulting  
and customized software solutions.**

**We are your partner for digital processes of all kinds.**

# Many Applications – We Are Experts in all Fields!

Industry

Craft

Healthcare

Public

**and many more ...**

# OrgaTech: An Excellent Team

## Our DNA

We are digital pioneers with **over 20 years of experience** in industrial maintenance and software development

A **highly-qualified team** for core tasks – supplemented by partners, experienced programmers and software developers

A **certified company** with professional and proven services

**Dozens of successful projects** with national and international customers from industry and craft

# Our Customers (Extract) We Are the Experts

**OrgaTech Solution Engineering Consulting GmbH** was founded by Bernhard Kurpicz and Dirk Richartz in 1999.

In 2014, we were the first company to be certified by DQS according to ISIS12.

Today, OrgaTech is active for all national and international customers (selection) across all sectors.

These and many more customers have already trusted our know-how and experience.

# Portfolio

---

✓ Maintenance strategy

GE Digital  
Alliance Partner

# ISP – Interactive Service Portal

## One System – Many Advantages!

Interactive Service Portal with HSEQ-management, master data maintenance and document management.  
As well as complete support of audits, checks, surveys, acceptances, inspections ...

- ✓ modular – you can assemble the individual modules according to your needs
- ✓ can be used immediately as your standard software
- ✓ interactive usage
- ✓ web-based and thus usable independent of location

Find all modules in the overview on [www.orgatech.org/isp](http://www.orgatech.org/isp)

# But That Is Not All: Experience the Digital Transformation with CALATENA!

Now we bring together all of our know-how from **over 20 years of experience in software development** and all the benefits of the ISP:

## Our solution

CALATENA **increases efficiency** through the digital, continuous integration of all corporate and project activities.

## Jump right in

CALATENA is the future: simple and straightforward.  
**Start working immediately** – without lengthy setup.

## SAP® integration

Reliable and always available – CALATENA is a **certified SAP® partner** and is hosted on the SAP® Cloud platform.

## Totally individual

**Free selectable range of functions** – the CALATENA-App enables individual and flexible workflows.

**The Future is Digital – with CALATENA!**

# CALATENA by OrgaTech – The Smooth Experience of Digital Processes!

Our services increase efficiency in maintenance.

All processes will be executed faster and more smoothly.

Regardless of the business size ... or the field of application!

- + **Continuous flow of data** between all companies and applications.
- + Maintenance work can be carried out **in less time** by improving coordination and allowing different processes to be executed at the same time.
- + Statistics and business intelligence are provided with data stored in a analyzable way.
- + A **current overview** of all the maintenance activities is always available.
- + The whole process is accelerated, reducing equipment downtime as well as the expense of **non-productive work** by as much as half.
- + Our software is certified for the **SAP-Cloud** in connection with SAP S/4 HANA and SAP R/3.

# CALATENA – Efficient and Integrated Solutions for Digital Workflow and Maintenance

Manually handling workflows and industrial maintenance processes causes a lack of clarity and an excessive need for coordination.

CALATENA increases efficiency by establishing a digital integration of all companies, actions and IT systems involved.

Mobile access for all involved companies and engineers. All data is available anytime from anywhere in the world.

Full integration of maintenance schedules, overviews and statistics.

Interface for sensors e.g. S/4 HANA, Predix and MindSphere.

All necessary transactions in the ERP System.

Certified for more reliability and constant accessibility.

Hosted on SAP® Cloud Platform.

**CALATENA can be installed on premise and operated by your own IT department.**

# Engineering – We Take Your Business to the Next Level

We provide you customized concepts and workable solutions – exactly match your company and your requirements.

We develop and implement custom software solutions, e.g. in the fields of:

✓ Production performance

---

✓ REFA / time recordings

---

✓ Process optimization

---

✓ Scaffolding

---

✓ Performance inspections

---

✓ Monitoring of safety-related parts

---

✓ Maintenance and inspection plans

✓ **Standard Service Catalogs (SSC)**

Creation and development of new  
standardised service specifications

---

✓ **Master data maintenance**

Management of amendments to  
service specification

✓ Plant documentation

---

✓ Work preparation

---

✓ Recording of the resources

---

✓ Resource management

---

✓ Accounting validation

---

✓ Continuous data and  
information quality management

# The New Generation of Consulting – We Make it Possible

We avoid time consuming preliminary analysis. We analyse data for qualified discussions about functions and processes. So you can significantly improve your business without your employee resources being tied-up in lengthy conversations.

✓ Process management

---

✓ Agile project management

---

✓ Change management

---

✓ Scrum

✓ Lean management

---

✓ Project revision

---

✓ Quality management

---

✓ REFA studies

✓ IT system integration

---

✓ SAP® party systems

---

✓ Logistics processes

---

✓ Storage handling

# Research and Development Pioneers Move Ahead

We are not satisfied with existing patterns and working methods. That's why we research innovative technologies and develop new standards. For example, in our work in the **DIN Standards Committee Services (NADL)** or in cooperation with various IT and business associations.

OrgaTech represented by managing director Bernhard Kurpicz in the following associations:

Chairman of  
DIN SPEC 77229

VDE Verband der Elektrotechnik  
Elektronik Informationstechnik e.V.

Bundesvereinigung  
Logistik (BVL) e.V.

Bundesverband Materialwirtschaft,  
Einkauf und Logistik e.V.

DASA Freunde und  
Förderer e.V.

Board of  
IT-Club Dortmund e.V.

Board of 4.OPMC e.V.  
Open Production & Maintenance Community
